

Features:

- Browser-based course request system
- Students log on to the system using their personal user ID and password
- Students fill out their own course requests via the web
- Displays transcript, academic statistics, and requested courses all on one web page
- Supports requests for both normal and summer school courses
- Students can only request enough courses to fill a schedule
- Students can view a course catalog description for each course
- Students can choose an alternate for each requested course
- Students can request a single semester of a year-long course
- Supports active directory login for students
- Can be accessed using RDS Parent Access software

Course Details

Subject: Art
 Course Name: 3D Art
 Course Length: One Semester
 Periods: 1

Description
 Students will produce works of art in a variety of 3-dimensional media. Sequential learning experiences that encompass the art elements and principles as well as art history, other cultures, aesthetics and critique will be covered. Core 40

Requested Courses (Fall / Summer)

Subject: Art
 Course: R01050 - 3 Dimensional Art
 Length: One Semester
 Alternate?: not an alternate

Semester 1: Adv. Journ, Algebra, 3D Art (open)
 Semester 2: (open), (open), (open), (open)

Benefits:

- Counselors spend less time typing, more time with students
- Counselors review and modify course requests, but don't have to enter them
- Reduces paperwork
- Eliminates data entry errors
- Students can review graduation requirements based on different diploma types
- Automatic synchronization between the course request database and the primary student management database

- Automatic management of student usernames and passwords
