F19-4

Create list/XL of students who took AP test

```
X11                          Test Score Status Report                    Screen 1

Format: 05 01=ISTEP, shows pass/fail for each test date plus final status
           02=ISTEP, shows final status, attendance, remediation in XLGQE
           03=ISTEP, shows final status only (no dates needed)
           04=ECA    X ALG1      _ ALG2      _ LA10      _ LA11      _ BIO1 (X=sel)
           05=Test Name: AP_____  Date: __ __ __ or Schl Yr: 09 10 thru 10 11
** NO NEED TO ERASE PARAMETERS FOR FORMATS YOU ARE NOT RUNNING. **
ISTEP Test Dates MMDDYY: (required for format 01 & 02 only)
     09 19 06 , 03 15 07 , 09 18 07 , 03 11 08 , 09 16 08 , 03 10 09 ,
     __ __ __ , __ __ __ , __ __ __ , __ __ __ , __ __ __
ECA Test Dates MMDDYY: (optional for format 04)
     __ __ __ , __ __ __ , __ __ __ , __ __ __ , __ __ __ , __ __ __
     __ __ __ , __ __ __ , __ __ __ , __ __ __ , __ __ __
Selection: 9 1=Did not pass Math            2=Did not pass LA
             3=Not pass LA + not pass Math  4=Pass LA + Pass Math
             5=Pass LA                      6=Not pass either LA or Math
             7=Did not pass Science         8=Pass Science
             9=Show all students            A=Pass Math

Create excel file XLTEST in school library? Y (Y=Yes, N=No) ** FMT 04 & 05 ONLY
Tchr & crs will be in the XLTEST file if courses are selected on next screen.

Enter=Continue, F16=Exit
```

```
X11                          Test Score Status Report                    Screen 2

Students, F5=Roster: _______ _______ _______ _______ _______ _______ _______
Include students who did not take the test: E (I=Incl, E=Excl, O=Only)
Include students with ISTEP Participation = N: I (I=Incl, E=Excl, O=Only)
Format 05 ISTEP -->  Print Applied Skills: N Essential Skills: N (Y=Yes, N=No)

Enter=Continue, F16=Return to previous screen
```

Note: the header in the excel file will show the column heading for the first AP test only. The form/level codes represent the AP subjects.

To select only those students enrolled in an AP Math course (your dept code may be different than the example), make entries as shown. Course name and teacher name will be in the XLTEST file in K???DATA. At least one dept or course must be entered to select students based on enrollment.
