Students, F5=Roster:
Include students who did not take the test: I (I=Incl, E=Excl, O=Only)
Include students with ISTEP Participation = N: I (I=Incl, E=Excl, O=Only)
Format 05 ISTEP --> Print Applied Skills: N Essential Skills: N (Y=Yes, N=No)

Enter=Continue, F16=Return to previous screen

Note: the header in the excel file will show the column heading for the first ECA test only. The form/level codes represent the AP subjects.

To show the student's current Math course (your dept code may be different than the example), make entries as shown. Course name and teacher name will be in the XLTEST file in K???DATA.

To view all ECAALG1 scores for each student, select D or B. To view the final test, select S (summary).

To show all 11<sup>th</sup> graders who haven't passed ECAALG1, you must include those who didn't take the test.
