

RDS Special Education

If you have used the CODA system, you will feel an immediate comfort level with the layout and data elements available within the web-based RDS Special Education Software. The software tracks referrals, placements, anticipated services, projected placements, discipline, and transitions from First Steps. It also generates the DOE-EV, DOE-TR, and DOE-SE state reports.

Much of the information for a student, including demographics and discipline, already exists within RDS Student Management and, therefore, does not have to be entered a second time. Users viewing Special Education information can also view the student's Schedule, Grades, Attendance, Standardized Test Scores, and more with just one click.

RDS student management > Student Search

Search Criteria

School: RDS High School | STN: | Student ID: |
 Last Name: Kapp | First Name: | Exact Match:
 Gender: any | Grade: any | Team: any |
 Parent Name: | Family Name: | (all schools)
 Show Parent Address and Phone | Only Include: |
